**Attention Nenad Milutinović**

Novi Sad, 15.08.2023.

**Subject: Annual Recertification audit according to ISO 9001, 14001, 45001 Standards.**

Dear Mr. / Mrs Milutinović

According to the requirements of the international standards, accreditation regulations and contractual obligations, the conduction of an annual recertification audit of the Management System is required in order to verify its effective implementation and to document its validity. Specifically, the due date to conduct the recertification audit is defined to be within 12 or 24 months for the 1st and 2nd annual recertification audit, respectively, after the date of the certification decision. Consequently, the audit process must be completed until 02.09.2023.

Any deviation from the above time frames shall lead to temporary suspension of the validity of your certificate for six (6) months. The validity of the Certificate will be permanently withdrawn if that time elapses and an initial certification audit will be required.

It is also required to inform us for any significant changes in any of the following:

- Legal status of the company
- Address of the audited site
- Organizational status of the company
- Major changes to management system/certified product and processes.

In order to verify all the above, please fill in properly the below table and send it by mail to:

.....@..... or fax it to ....., attention to "Customer service department".
